

## Lead Our Company

**Arctos & Bird** is located in Banff National Park; you'll find the spirit of this special place at the heart of everything we do. Our hospitality and property management operations are built on social and environmental values: we create spaces where people and nature can thrive.

We're looking for a **Chief Operating Officer** with the passion to lead our team as we build back better out of the pandemic. Grounded by a thorough understanding of hospitality, finance and administration, the person who will run our company wants to make business matter in the 21st century.

Our ideal candidate has skills and experience while knowing there's always more to learn. They take time to understand the strengths of their team and motivate them to shine. They know how to measure both the bottom line and our contributions to nature and community.

If you're looking for a chance to bring your values to work, help others grow and leave your mark on Canada's most cherished destination, we'd love to hear from you.
